

**TITLE: LAUNCH READY COLLEGE WEBSITE**

**Hackathon Project TBG5**

**Team name: DevBros**

**Team Members: K Mrinal (23BDS1022)**

Aditya Vasu Rana (23BDS1020)

Harshit Sharma (23BRS1109)

Divyanshu Sharma (23BDS1155)

# Problem Statement

- A college website is the digital face of an institution.
- It must be informative, user-friendly, and visually engaging.
- Key users: **Students, Parents, Faculty, and Stakeholders.**

## Challenge

- Build a **fully functional, launch-ready** website using **Tiram.AI**.
- Ensure **easy navigation** and **mobile responsiveness**.
- Showcase institution's strengths and facilitate **student inquiries**.

# Key Features

- **Homepage:** College highlights & vision.
- **About Us:** Institution's history, faculty, and values.
- **Admissions & Courses:** Detailed academic programs & application process.
- **News & Events:** Updates on college activities.
- **Contact & Inquiry Form:** Easy communication with the college.
- **Student Life & Facilities:** Clubs, facilities, and extracurriculars.
- **Testimonials & Success Stories:** Alumni and student achievements.
- **Mobile Responsiveness:** Seamless experience across devices.

# Solution Overview

- **Technology Used:** Natural Language Programming(NLP)
- **AI Integration (Tiram.AI):** How it helps build and maintain the site.
- **User Experience (UX) Focus:** Accessibility, interactivity, and engagement.
